With reference to your O O 1327/22-23 dated 15-12-22 regarding the grant of permission to the construction of a well in the open land adjacent to the compound of the Travellers' Bungalow for the use of the Mission Hospital I have the honor to state that the subject was brought forward at the meeting of the Municipal Council this morning and that as expressed by the members assembled I took the Treasury Assistant Commissioner and some of the other Municipal Councillors to the locality and the Amildar and the authorities in charge of the Mission Hospital were also sent for We were of opinion that the Mission people might be allowed to sink a well at any place within five feet of the Sparkes Road on the vacant land in question and that they may be permitted to lay out the pipe line in the said with a condition that they should remove and relay it in the Sparkes Road if the land was required for other purposes The Mission authorities have consented to allow the public to make use of the water of the well by means of a fountain to be provided by them They may be further allowed to excavate experimental wells in the strip of land above mentioned provided they undertake to fill in all the pits found unnecessary As all the members of the Municipal Council who attended the meeting not present at the time inspection and as there is likelihood of a possible objection that they were not parties to any resolution I have not thought it fit to record any resolution in the matter, more especially as the Municipal Councillors present at the inspection were not enough to form a quorum I have deferred the matter for the next meeting and suggest that the sanction of the Government may kindly be obtained in the interval as the land is one that has been reserved by the Government

SIR,

I have the honor to state that the Superintendent Ellen Thoburn Cowen Memorial Hospital Kolar has applied for a suitable plot of ground to the South of the Hospital property for sinking and maintaining a well for the purposes of the Hospital

2 The entire vacant land to the South of the Hospital and adjoining the Travellers Bungalow compound is reserved as per Government Order No 6568-9/ L 2 -10-9 dated the 15th March 1922 and as such no portion of it could be granted for any private purposes without the sanction of Government

3 The Municipal Council who are consulted in the matter have no objection to the request being complied with provided that the well is sunk within 50 ft of the Sparkes Road and the well is also available for public use Copies of the resolution of the Council and of the letter received from Mr Srinivasachar the former President, referred to in the resolution are enclosed for the information of Government

4 I request you to be so good as to obtain the sanction of Government to the Municipal Council Resolution The Hospital is serving the public to a very large extent and has recently started an orphanage as its appendage The request of the Superintendent is very reasonable and

therefore

deserves the sympathetic consideration of Government.

Sir.

With reference to your letter No R OC 1327(b) 22-23 dated 22nd instant, I have the honour to state that the authorities of Ellen Thobrun Cottage Hospital, have not as yet shown me the place they need for the purpose of sinking a well At the same time the Council's resolution passed in the months of January 1923 is so very defective as the width of the land required for the purpose of sinking a well is not mentioned As such I am not in a position to give out the exact extent of land required and as the extent of land is not clear, I cannot value the probable

or exact Value of the land Regarding the
2nd point whether any building will be
erected, I wrote to Rev Hilmer to ascertain
from him whether any building is to be
erected on the spot, he has written to
me to say on the 18th of August 1923
Rev Dr Lewis did not intend to erect
any building but the most that would
be required may be a distributing
tank of small size. However to
make the resolution of the municipal
Council held on the 27th January
1923, more clear, regarding the extent
of land required and to ascertain its
Value, I have been including the Subject
in the Agenda from August last.

After a resolution is passed in
the council regarding this Subject, I shall
let you know exactly the Land required
and its probable Value Rev Dr Hilmers'
letter is enclosed for your kind perusal

Mr Gurumaya Rao, President,
Municipality of Kolar

Dear Sir,

Since receiving your letter dated 22-8
regarding land for sinking a well, we have
been considering our whole situation and the
probabilities of our work expanding. We
soon to secure money for erecting a suitable
large enough to accommodate forty people
building measuring about 80 x 110 ft. Then
little later expect to have money appropriate
for a Staff Bungalow and have drawn p
for such a building measuring about 70 x 70 f

In a few more years, we hope to have
the funds for erecting a separate building f
our Dispensary work, which would cover consider
ground space. As you already know we have
the funds for sinking a well from which we
hope to obtain a large enough water supply
for all the buildings on our compound.

We then expect to build our own shower
baths and now have the money promised

Ellen Thoburn Cowen Memorial Hospital

Margaret D. Lewis, M.D.
Edith T. Mershman, M.D.
Alice I. Griffin, R.N

Kolar, S. India

for the expense of putting on an adequate sew
system

To place all these new buildings on our
present compound would crowd them too closely to
gether and spoil the general effect of the whole
place. Therefore we would respectfully requ
that the property lying south of us between the
present Hospital Compound and the property
belonging to the Dak Bungalow, be given to
for this purpose

I do not think it possible to obtain funds
for purchasing this property, so I make my a
that it be given to us, so that we may ha
plenty of room in which to increase our wor
and usefulness to the community. I believe th
the work that the Hospital is trying to do fo
the benefit of the people in this community
generally appreciated and that they in authorit
will do all that they can to help us

Am sending under separate cover, a map o
our present compound with the property that
we desire so that you may see the great adv
vantage it will be to make it all one large
compound. Respectfully submitted. Yours sincerely
